

# PRODUCT AWARDS

Since its introduction, the LogiSon® Acoustic Network has been honored with numerous awards recognizing innovation, performance and ease of use.

## Best of NeoCon® Award

*Five-Time Winner*

In both 2003 and 2006, the LogiSon Acoustic Network received the Silver Best of NeoCon Award in the Workplace Technologies category. In 2006, the Remote Manager Software earned Gold in the Software Technologies category while Acoustic Network Manager won Silver in 2007. In 2014, LogiSon TARGET won Silver in the Workplace Technologies category.

This annual competition is sponsored by Contract magazine, the International Interior Design Association (IIDA) and Merchandise Mart Properties, Inc. Entrants are evaluated by a team of corporate facilities professionals who consider functionality, flexibility, quality, aesthetics, innovation, pricing, and environmental sustainability.

## NSCA Innovations in Technology Award

The Remote Manager Software was selected as one of three finalists in the Control Systems category of the 2007 Innovations in Technology Product Awards.

This program is presented by the National Systems Contractors Association (NSCA) and Sound & Video Contractor magazine. It's designed to recognize companies that make exceptional contributions to the electronic systems industry. Entries are judged against a high standard of excellence by a committee made up of expert integrators, contractors, design consultants, and magazine editors.

## IIDEX / NeoCon® Canada Award

*Three-Time Winner*

In 2003, the LogiSon Acoustic Network earned Silver in the Innovative Product category of the IIDEX / NeoCon Canada Awards. In 2006, the Remote Manager Software was also recognized in this way. And, in 2007, the Acoustic Network Manager Software earned Gold.

For 22 years, these awards have been a highlight of IIDEX / NeoCon Canada, the country's largest exposition and conference for the design, construction and management of the built environment. The program is run by the Interior Designers of Canada and Merchandise Mart Properties (Canada) Inc., who manage the fall exposition owned by the Association of Registered Interior Designers of Ontario (ARIDO).

## Symposium Distinction Award

In 2006, the LogiSon Acoustic Network earned the Symposium Distinction Award for Most Innovative Product. These awards are sponsored by FacilityCare Magazine in association with the Healthcare Facilities Symposium & Expo. There are only three product awards and they are presented to those outstanding new products whose unique design contributes to the enrichment of a healing environment.

Nightingale Awards

## Top 100 Products

*Two-Time Winner*

In 2004, the LogiSon Acoustic Network was selected as one of Buildings magazine Editor's Choice – Top Product Picks. In 2006, the Remote Manager Software received this honor.

Thousands of products were reviewed by the magazine's editorial staff and facilities professionals. An elite group was selected based upon a number of factors, including aesthetics, ease of use, durability, efficiency or applicability, universal appeal, sustainable elements, and more.

## Nightingale Award

*Three-Time Winner*

In 2005, the LogiSon Acoustic Network received two Nightingale Awards, including Best of Competition. In 2015, LogiSon TARGET earned a Silver Nightingale Award in the Architectural Products: Non-Clinical category in recognition of its ability to rapidly achieve the specified sound masking curve, assisting with HIPAA compliance and improving HCAHPS scores relating to noise.

These awards are sponsored by Contract magazine, The Center for Health Design and Medquest Communications. They recognize and promote innovative products that contribute to the quality of healthcare and forge new design directions. Each entrant is evaluated by a jury of design professionals.

## PIA'14

In 2014, LogiSon TARGET earned a Product Innovation Award (PIA) from Architectural Products Magazine.

This program identifies and honors innovation in the development and refinement of buildings-related products, and also recognizes manufacturers who have demonstrated outstanding leadership across many different platforms, be it education, sustainability or standards development. Judges include architects, interior designers, lightening designers and veteran A/E/C writers.

## Buildings Innovation Award

*Three-Time Winner*

In 2004 and 2009, the LogiSon Acoustic Network was given the Innovations Awards' Citation of Excellence for Product Performance & Ease of Use. In 2014, LogiSon TARGET earned a Merit Award in the Technology Support category.

This program is sponsored by Buildings magazine. It honors products and services based on how well they solve today's facilities challenges in commercial, institutional and industrial markets.

## Building Operating Management Top Product Award

The Building Operating Management Top Product Awards recognizes the most popular manufacturers and suppliers of the year, as determined by building and facility executives who sought further information about the products when they appeared on the FacilitiesNet.com website.

## Buildings Money Saving Product

In 2010, the LogiSon Acoustic Network was selected as a Money Saving Product by Buildings magazine. This award honors innovative product offerings that help commercial building owners and facility managers to enhance productivity, control costs and use less energy.
